

[illegible]

Where the process is or will be carried on on only part of the premises whose address is given at 2 above, describe which part of the premises and list the plan(s) which identif(y)(ies) this part or these parts.

-
- 6 Describe the proposed change(s) to the prescribed process⁽³⁾ (*use a continuation sheet if necessary*)
-

- 7 When was the plant first installed?
-

- 8 List the prescribed substances (and any other substances which might cause harm) use in connection with or which might be released into the air resulting from the proposed change.
-

- 9 Describe the techniques to be used for preventing releases into the air of substances listed above, for reducing such substances to a minimum and for rendering harmless any such substances that are released (*use a continuation sheet if necessary and attach drawings of plant and equipment, where appropriate*)
-

- 10 Give details of the source, nature and amount of current and/or anticipated emissions to air resulting from the proposed change (*use a continuation sheet if necessary*).
-

- 11 Give the assessment of the likely environmental consequences of the emissions to air (*use continuation sheet if necessary*).
-

12 What monitoring is or will be carried out of emissions to air?

13 What monitoring will be carried out of the environmental consequences of emissions to air?

14 How will you monitor the techniques described in the answer to question 9?

15 If you have any proposals for improvements which might prevent or reduce emissions, please give details (*use a continuation sheet if necessary*).

16 Give any other additional information which you would like to be taken into account by the local authority in considering your proposed change.

Official guidance on the best available techniques as published by the Department of the Environment in the process guidance notes for specific industries, copies of which are available from HMSO or can be ordered from certain bookshops. **YOU ARE ADVISED TO CONSULT THE PROCESS GUIDANCE NOTE FOR YOUR INDUSTRY BEFORE COMPLETING THIS FORM. YOU MIGHT ALSO FIND IT USEFUL TO READ THE GENERAL GUIDANCE NOTE GG3.**

If you require any further information or assistance in completing this form, please contact your local Council at the address shown below.

Please complete the final section of this form on page 4 overleaf.

- (1) This is the local authority in whose area the permitted installation is or will be carried on, or in the case of mobile plant, the local authority in whose area the applicant has his principal place of business.
- (2) Please state the person/company who is operating or will operate the installation, not an agent who may be completing the application on the operator's behalf.
- (3) Please list fully all pollution control measures for all stages of the process, from the receipt of raw materials to the despatch of wastes and finished products, including, for example, the height and location of any stacks or vents; the abatement technology; process control and operational data; arrangements for maintenance; the extent of supervision; the relevant qualifications and experience of the workforce; staff training; and contingency plans for breakdowns and emergencies. All calculations should be shown, particularly for the chimney height(s). Justification for the selection of a particular abatement option should be given.
