

Carlisle City Council operates a Residents Parking Scheme on behalf of Cumbria County Council.

The scheme provides time limited parking (Disc Zone Parking) in which vehicles displaying a valid Resident's or Visitor's Parking Permit are exempt.

A permit holder can park in the marked out areas/bays in the street without time restriction.

The Residents Permit Scheme does not guarantee a parking place outside the premises/house but you will be able to park within the specified zone.

The Resident's Parking Scheme:

- For non- permit holders, waiting is limited and a clock disc must be displayed in accordance with the waiting restrictions on the road signs.
- Permit holders and disabled badge holders are exempt from these time restrictions. The permit or blue badge must be on display at all times to qualify for this exemption.
- On proof that the vehicle is registered to the occupier at the address, a permit will be issued (there is currently no limit on the number of permits issued provided the relevant proof is provided).
- Businesses are issued with one vehicle permit if they have no off street parking.
NOTE: This is not applicable to Zone C (City Centre Disc Zone).
- 60 days worth of visitor permits are issued to each household per year (only in exceptional circumstances are written requests for extra visitor permits considered, i.e. medical grounds).
- Each permit is issued for use within one zone and is not transferable for use in another zone.
- If a vehicle parks without a permit or valid parking disc the Civil Enforcement Officer will issue a Penalty Charge Notice.
- Vans and commercial vehicles up to the weight of 7.5t are allowed to park within the Scheme.
- Cars up to 3.5t and carrying up to 7 people are allowed to park within the Scheme.
- No caravans or trailers may be parked in the Disc Zone even if they are attached to a vehicle.
- If a permit holder ceases to reside in within the Residents Parking Scheme ALL permits must be returned to Parking Services.
